

RANDOLPH

Percy J. French, Reported Injured in France, Is Finally Identified.

A telegram was received here several days ago for Albert C. Slack, announcing the fact that Percy J. French was wounded in France. The name was very misleading, as there was no person here by that name, but the message was finally taken to Arthur C. Slack at the A. & P. store and this led the way for the delivery to the right person. Mr. and Mrs. Arthur Slack, when they lived on a farm near Randolph Center, took a boy by the name of Percy J. French, when he was ten years of age, from a home in Boston, he having been brought up here for a time by parties. The boy remained till five years ago, making his home with the same family, when he went to Ogdun, Wash., and purchased a half-interest in a ranch, where he worked till October 1, 1917, when he enlisted at Tacoma, Wash., and went into training at Camp Lewis, as a member of the 362d Infantry, Co. E. About six months ago he went overseas, and it is thought was wounded about the 1st of October, the leg being shattered. When in the base hospital he wrote Mrs. Slack, and nothing further has been heard from him, till the arrival of the telegram several days ago. It is not known whether he is yet in the hospital, or what his condition is. He is 26 years of age, and so far as known his parents are dead.

Donald Salisbury, who has been in training, is now at his home here, having arrived Monday.

Rev. and Mrs. Joseph Hamilton, after several weeks out of town, passed in White River Junction and St. Johnsbury, returned home last Friday. Mrs. Hamilton had the misfortune to fall on Monday, injuring her hip, which will confine her for a time, but it is hoped that with the care of Mrs. Alice Moore, the domestic nurse, she will gain rapidly and soon be able to get about. It was first feared that her hip was broken, but later investigation proved that it was only injured.

Miss Blanche Dupres, who has been in Salem, Mass., for a time, arrived here Tuesday for a short visit with her cousin, Miss Mary Marcot, and will go from here to her home in Montreal.

PUBLIC IS WARNED Against Taking Substitutes for Nuxated Iron

Physicians Below Say That Ordinary Metallic Iron Preparations Cannot Possibly Give the Same STRENGTH, POWER AND ENDURANCE As Organic Iron—Nuxated Iron

United States Judge Atkinson Gives Opinion

Careful investigation by physicians among druggists and patients has revealed the fact that there are thousands of people taking iron who do not distinguish between organic iron and metallic iron, and that such persons often fail to obtain the vital energy, strength and power which they seek, simply because they have taken the wrong form of iron.

Therefore, physicians mentioned below, advise the public of the need of a strength and blood builder to go to the family doctor and obtain a prescription calling for organic iron—Nuxated Iron—not any other form of iron.

Judge G. W. Atkinson

United States Judge G. W. Atkinson, of the Court of Claims, Washington, D. C., says: "It is without hesitation my opinion that Nuxated Iron is the best and most reliable of all iron preparations for the system to become debilitated, the body exhausted or the nerves run down. It has restored my appetite and my vitality. I feel that I have dropped out of the burden of months of toil in a few weeks that I have been following the directions for the use of Nuxated Iron."

Nuxated Iron and its widespread sale (it being estimated that over three million people annually are to-day using it), has led to the offering of numerous substitutes, and these physicians say that health officials and doctors everywhere should caution the public against accepting substitutes in medicine, and they especially warn against accepting substitutes for Nuxated Iron, which, instead of being organic iron may be nothing more than a metallic iron compound which may in some cases produce more harm than good.

The substitution of the above information, has been suggested by Dr. James Francis Sullivan, formerly physician of Bellevue Hospital, New York City, and of the Westchester County Hospital; Dr. Ferdinand King, New York Physician and Medical Author and others, so that the public may be informed on this subject and protected from the use of metallic iron under the delusion that it is Nuxated Iron.

It is surprising how many people suffer from iron deficiency and do not know it. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength and see how much you have gained.

Manufacturers' Note—Nuxated Iron, which is a secret remedy, but one which is well known to druggists. Unlike the ordinary iron preparations, it is not adulterated, and it is pure, the taste, which is not unpleasant, is the same as the taste of the original Nuxated Iron, and it is entirely satisfactory results to every purchaser. It is sold in this city by all good druggists.

NORTH FAYSTON

The ladies of the Red Cross met at the home of Mrs. Hugh Henry one day last week to transact some business and elect officers. Each one kept their office, with the exception of the supply committee, Mrs. Hugh Henry resigning on account of not being able to attend to the work. Mrs. G. C. Grandfield takes her place.

We all like to read of the good works done by each Red Cross branch, but wouldn't it make the ladies of the North Fayston auxiliary feel much better if the Moretown chapter would give them a little credit for helping them out in their quota for October? We made 20 housewives and comfort kits and 10 property bags, also four sweaters out of blue yarn, and for their last quota, that they call all ready to be sent the 15th of December, we made 10 of the gray sweaters and 20 property bags. There are but a few of us, so for that reason we think we have done well and would like just a little bit of credit from Moretown Red Cross. We don't want to be put down as slackers. We also gave them 42 1/2 yards of cloth, which probably will net them \$10 or \$12 on their linen shower. We also gave them \$15 in cash. Now we have started knitting socks. There is also one more sweater made, ready to be sent in from the left-over blue yarn. We don't think Moretown meant to slight us; it must be the fault of the correspondent.

Hugh Henry has been laid up for the past week, having been kicked by a horse.

Charles Corlies had to have one of his horses killed as it got its shoulder broken.

GIRLS! HAVE A MASS OF BEAUTIFUL HAIR, SOFT, GLOSSY, WAVY

A Small Bottle Destroys Dandruff and Doubles Beauty of Your Hair

Within ten minutes after an application of Danderine, you cannot find a single trace of dandruff or falling hair, and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance, an incomparable luster, softness and luxuriance.

Get a small bottle of Knowlton's Danderine from any drug store or toilet counter for a few cents and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.—Adv.
